

Environmental policy

Delkeskamp group

Preamble

Delkeskamp produces and distributes containerboard, corrugated cardboard products as well as products made of EPS (expandable Polystyrene). The company is responsible for the continuous improvement of the energy consumption in the production process and the reduction of the consumption of natural resources considering economic and ecological aspects. Delkeskamp uses ecological and progressive technologies to produce its goods. The company works as a partner for society and politics in designing a social and ecologic sustainable positive development.

Principles/goals

- It is a major goal at Delkeskamp's to reduce the influence on the environment through all the activities and to participate finding solutions for environmental issues on a regional basis with as far as possible.
- It is our intention to offer high-end products that meet the customer's expectations in the regards of sustainability, energy consumption and quality.
- In order to guarantee long-term safety for the company and to increase the competitiveness the same we find and exercise ecologically efficient processes and concepts for production and control them by means of key figures.
- Reduction of waste, protection of resources and soil, air and water are relevant objectives. Responsible chemical management surveys the components regarding their environmental sustainability and safe handling for our employees already during product release.
- By implementing a certified energy management system, processes are to be controlled in the respect of energy consumption and to be improved by energy-efficient technologies in order to protect the environment from excessive pollution. Lowering energy consumption and the continuous improvement of the energy efficiency are relevant goals.
- Cooperation with politics, external consultants and authorities are based on an activity-oriented and trusting attitude. It is regarded high priority to comply to the safety standards and to avoid environment pollution.
- The board of directors of Delkeskamp's constantly reviews the observance of the environmental policy.
